## Covid - 19 | Weekly Data Update | 2nd Sep 2020

Contact: Public Health Department

Version 3.0

Date: 3 Sep 2020

### Confirmed Cases

#### Cumulative confirmed COVID-19 cases, Fife Residents

The number of positive tests reported each day refers to the number of individuals tested positive on the day preceding the notification date. These have been compiled into a cumulative figure for positive cases.

\*The daily total of people found positive on 2/6/20 contains 40 historic samples which accounts for the sharp increase shown in the chart above.  
\*The increase on 15 June is due to the addition of all the UK Government testing cases to the database.

### Confirmed Cases by Date

#### Number of confirmed cases by test date, Fife Residents

The number of positive cases is shown over time according to the date the person was tested for Covid-19 together with a 7 day moving average to smooth daily fluctuations.

\*Historical data was added on the 20th April causing an artificial spike in the chart.
