Version 1.0

Date: May 2020

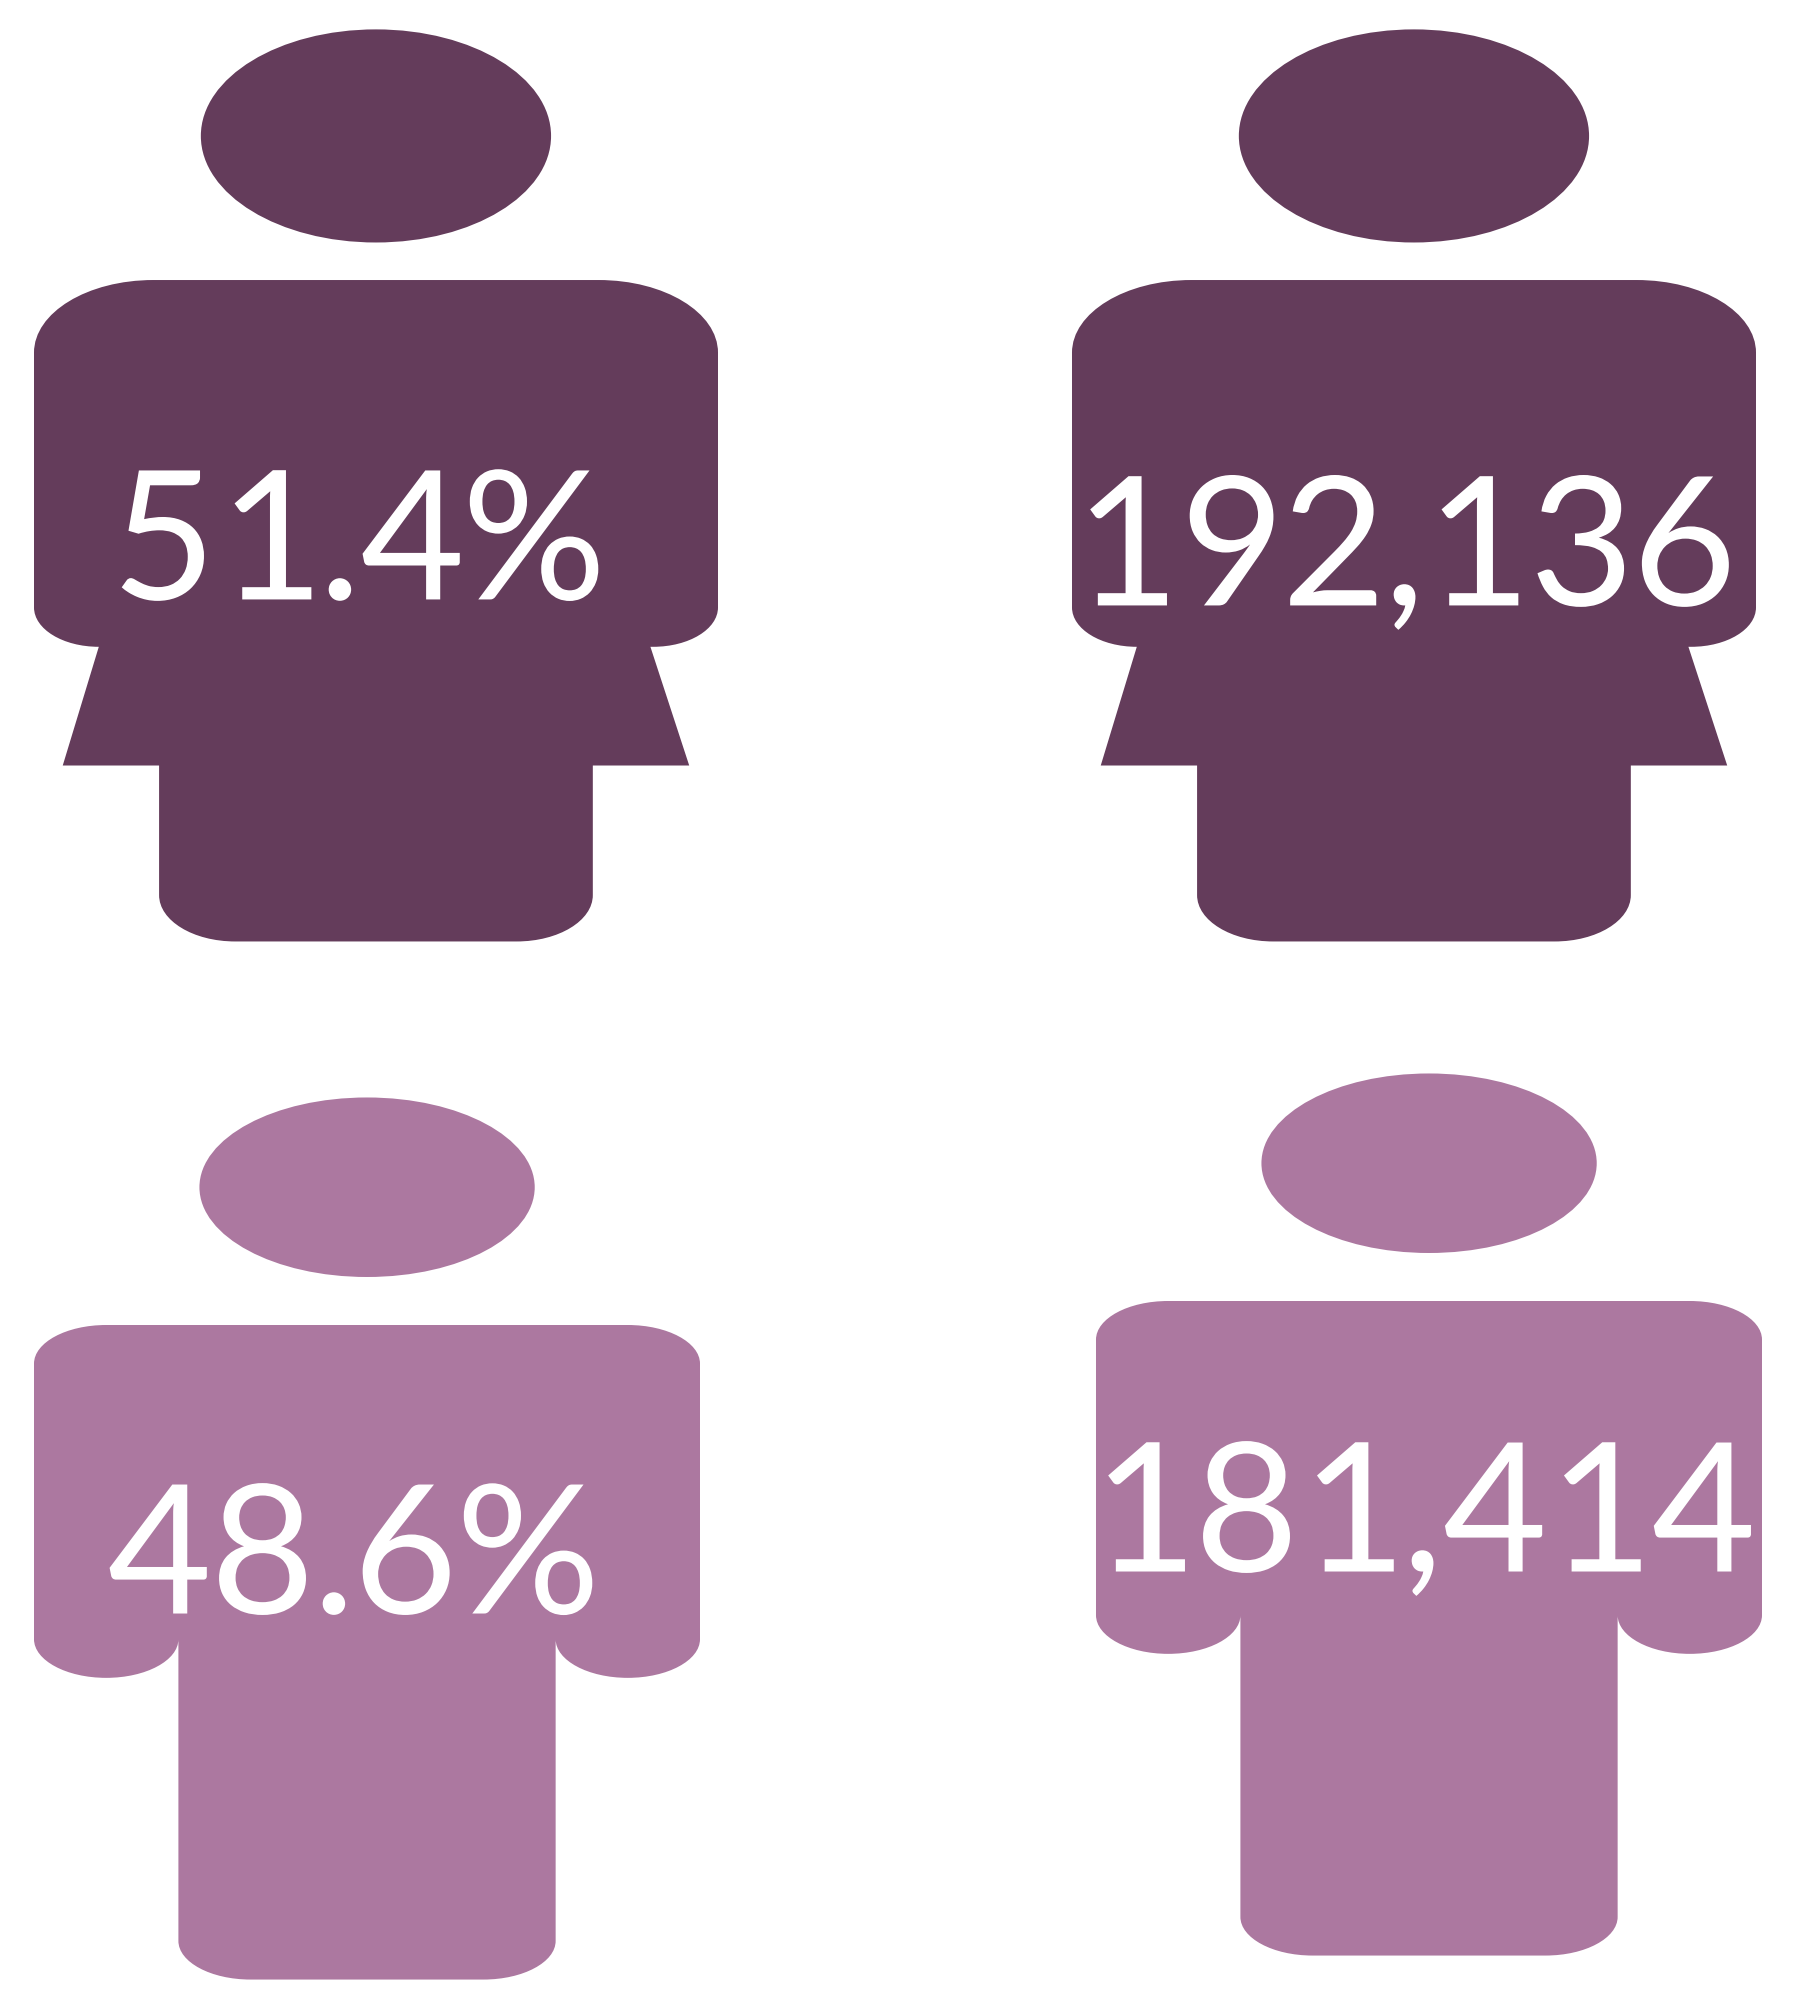

Age Distribution

Key Age Groups

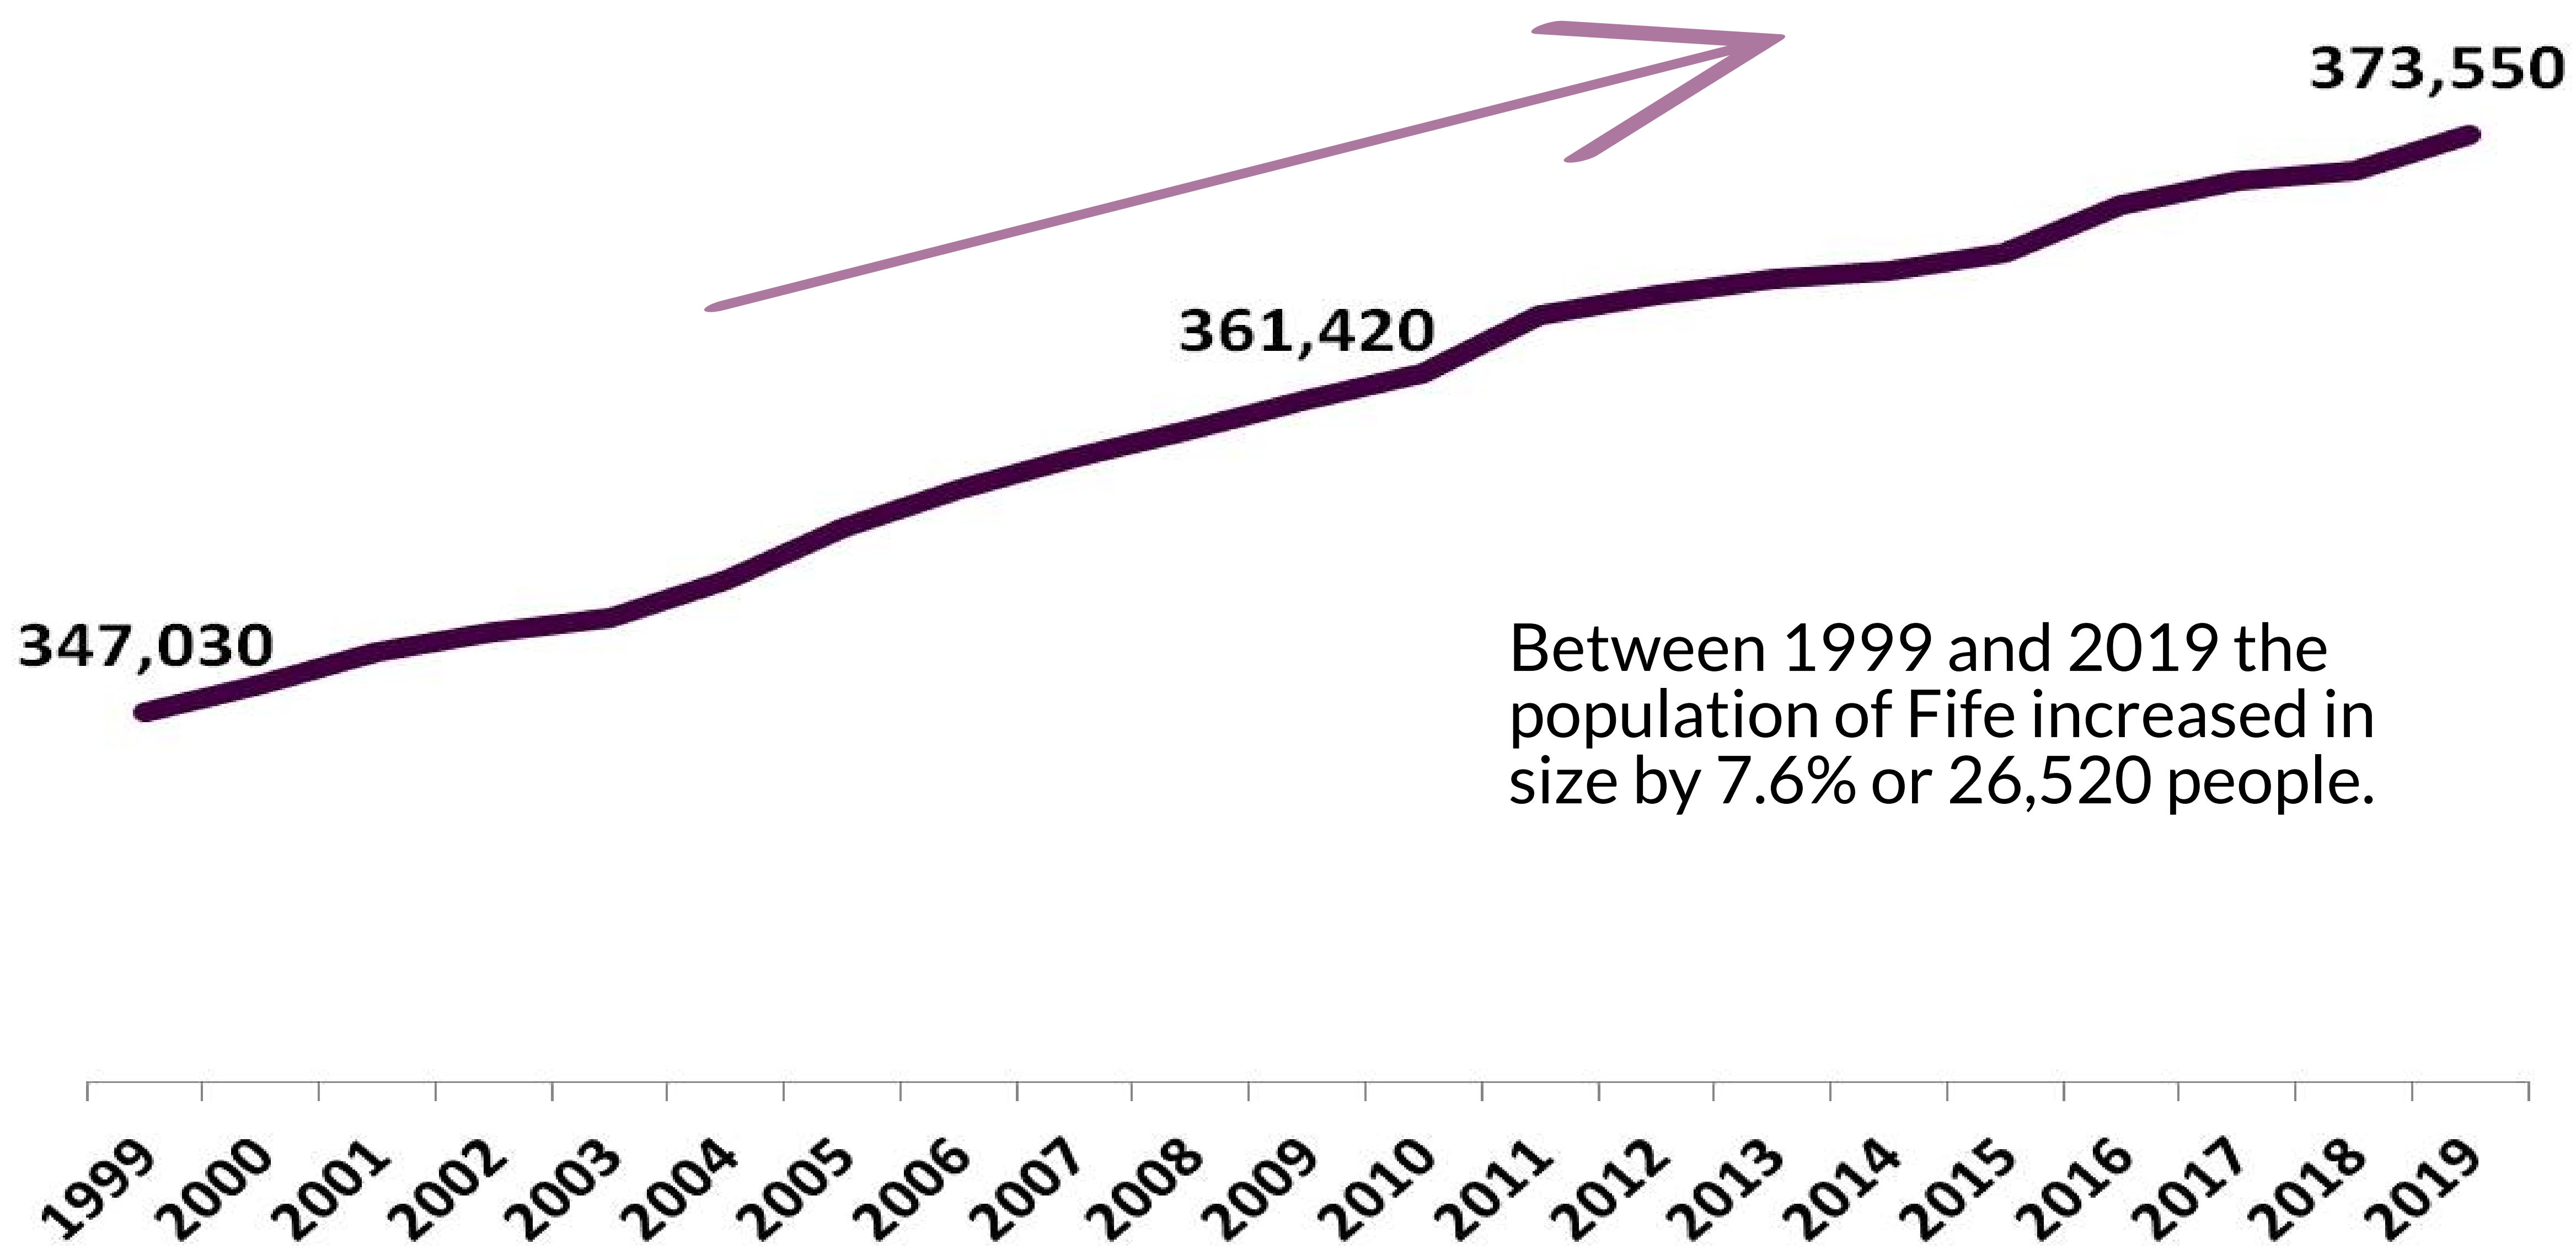

Gender

Age Group	Number of people	% of population
0-15	64,552	17%
16-64	231,974	62%
65-74	42,231	12%
75+	33,793	9%

Trend over time - growing

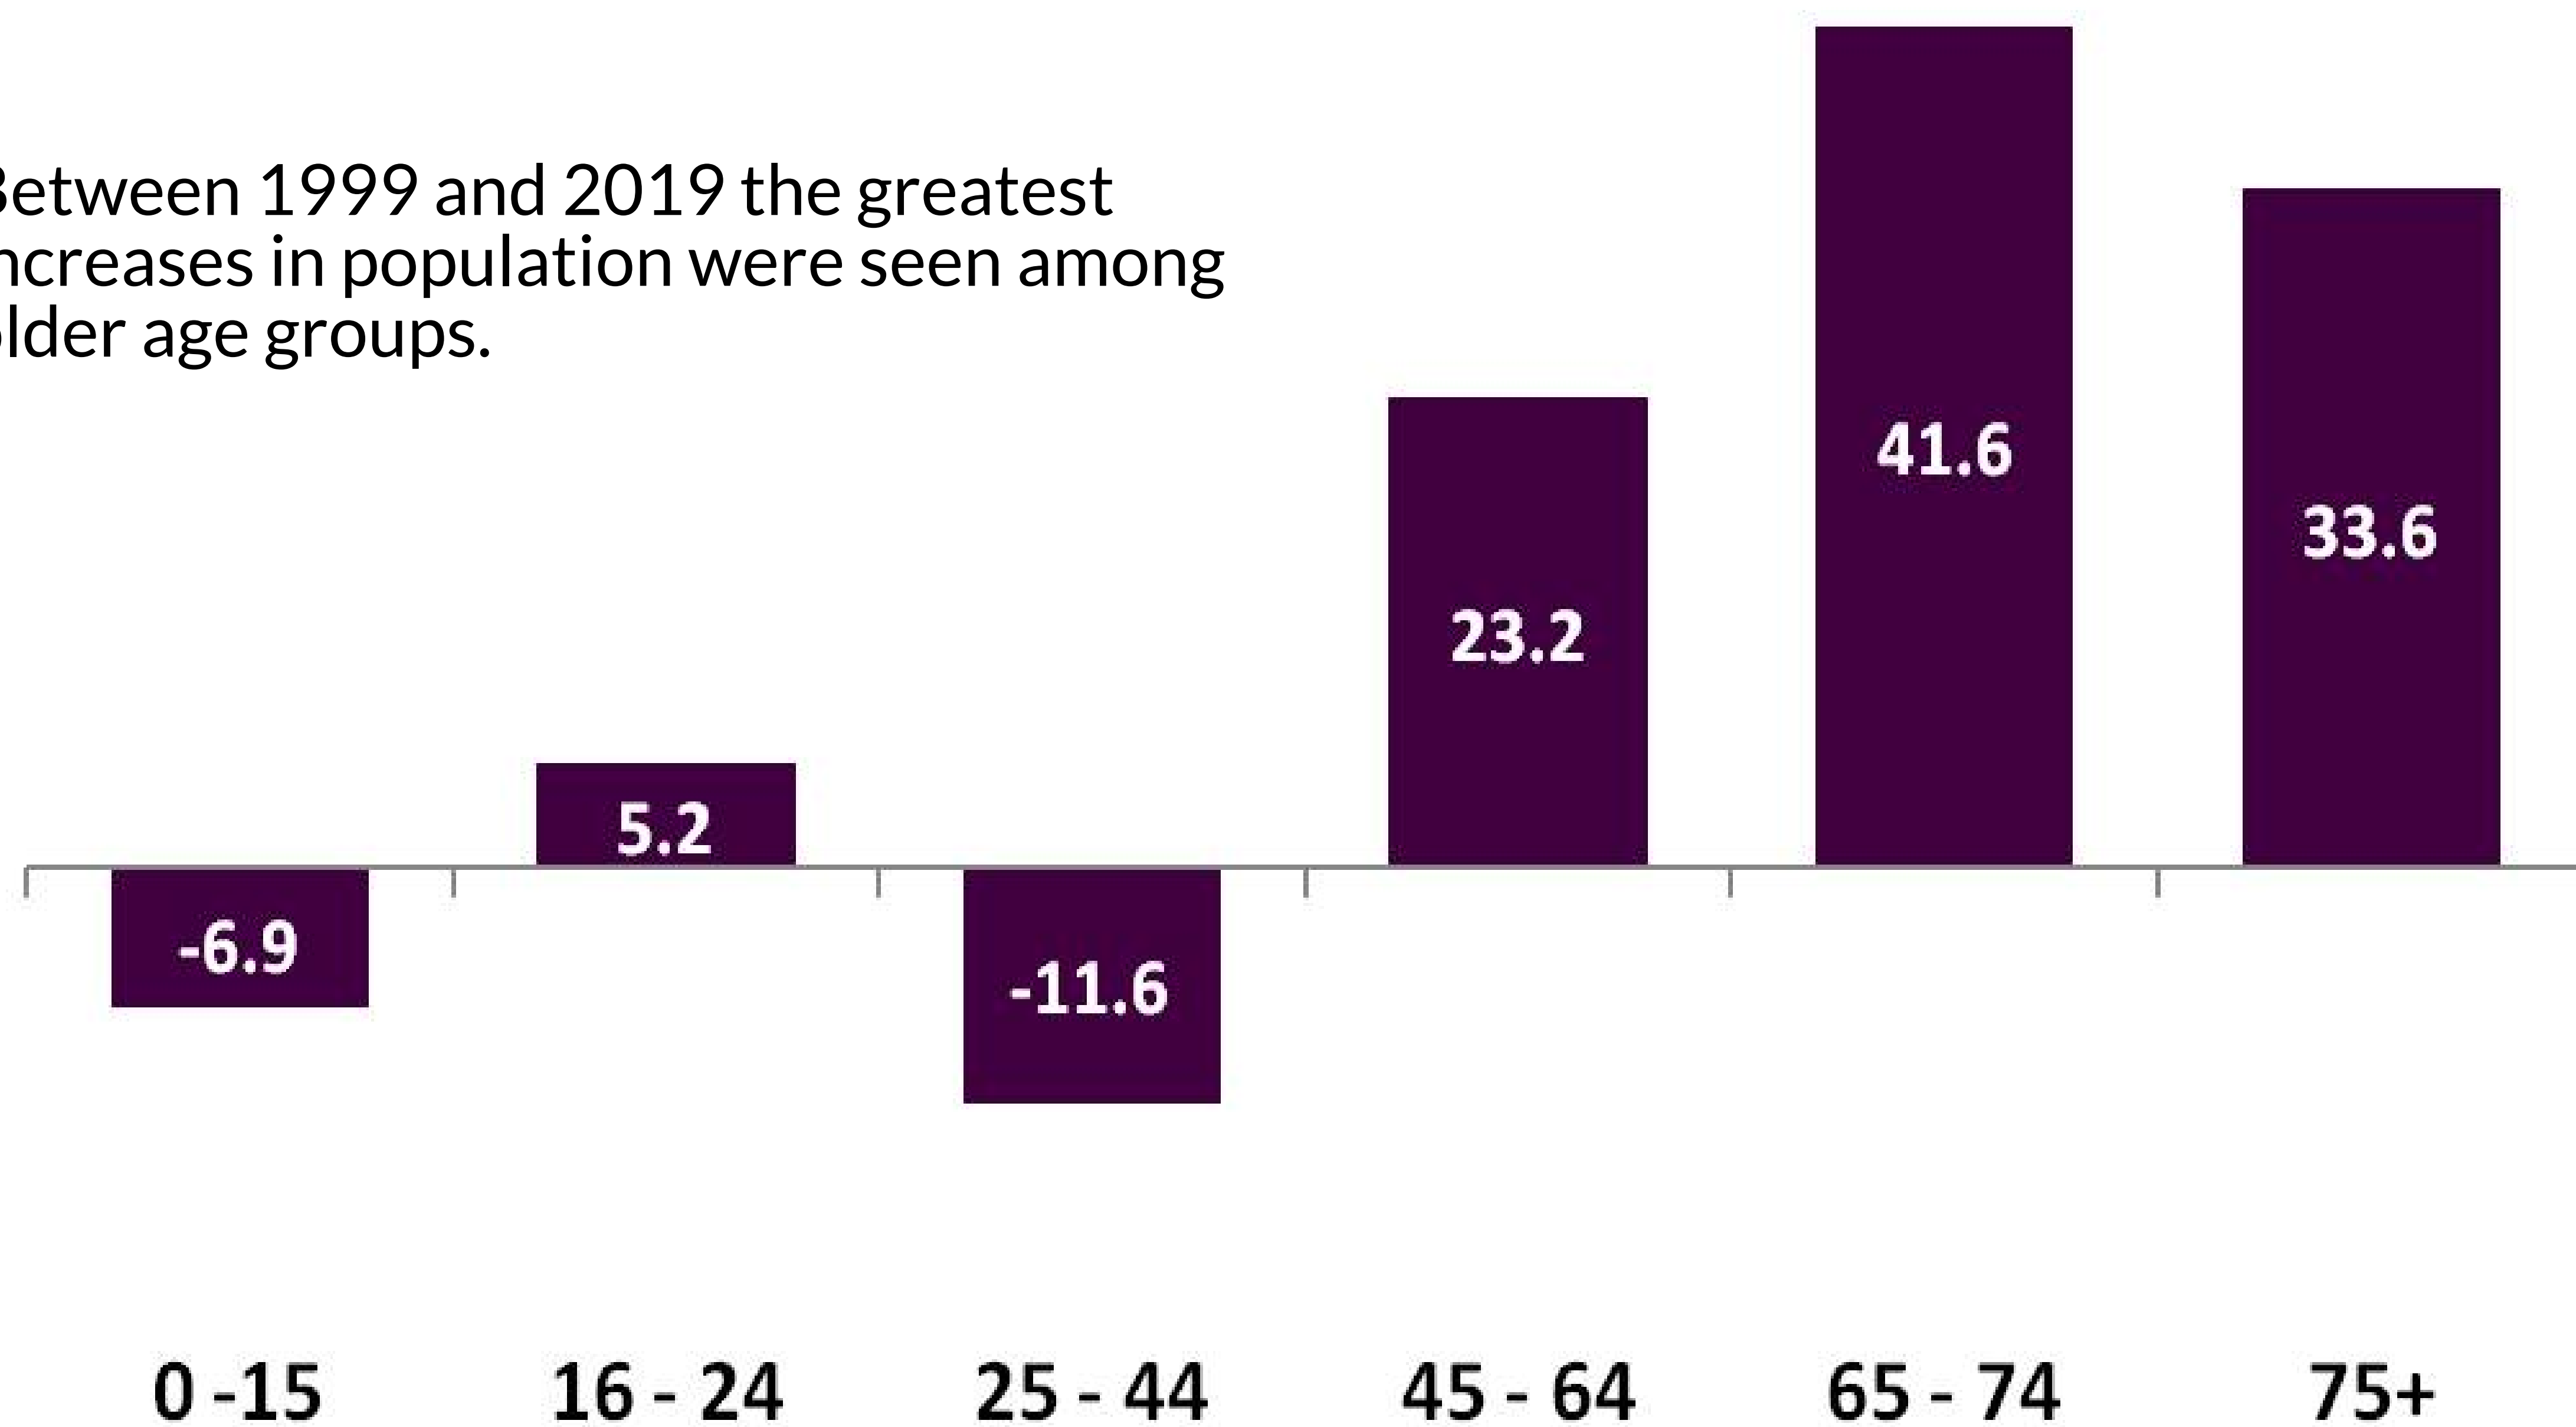

Population of Fife (persons), 1999 to 2019

Trend over time - ageing

Percentage change between 1999 and 2019 for key age groups

Between 1999 and 2019 the greatest increases in population were seen among older age groups.

In this time the number of people living in Fife aged 65-74 increased by 41.6% and the number aged 75 and over increased by 33.6% which means there are now 21,191 more people aged 65 and over living in Fife than in 1999.
