## 2017 Fife Population Estimates

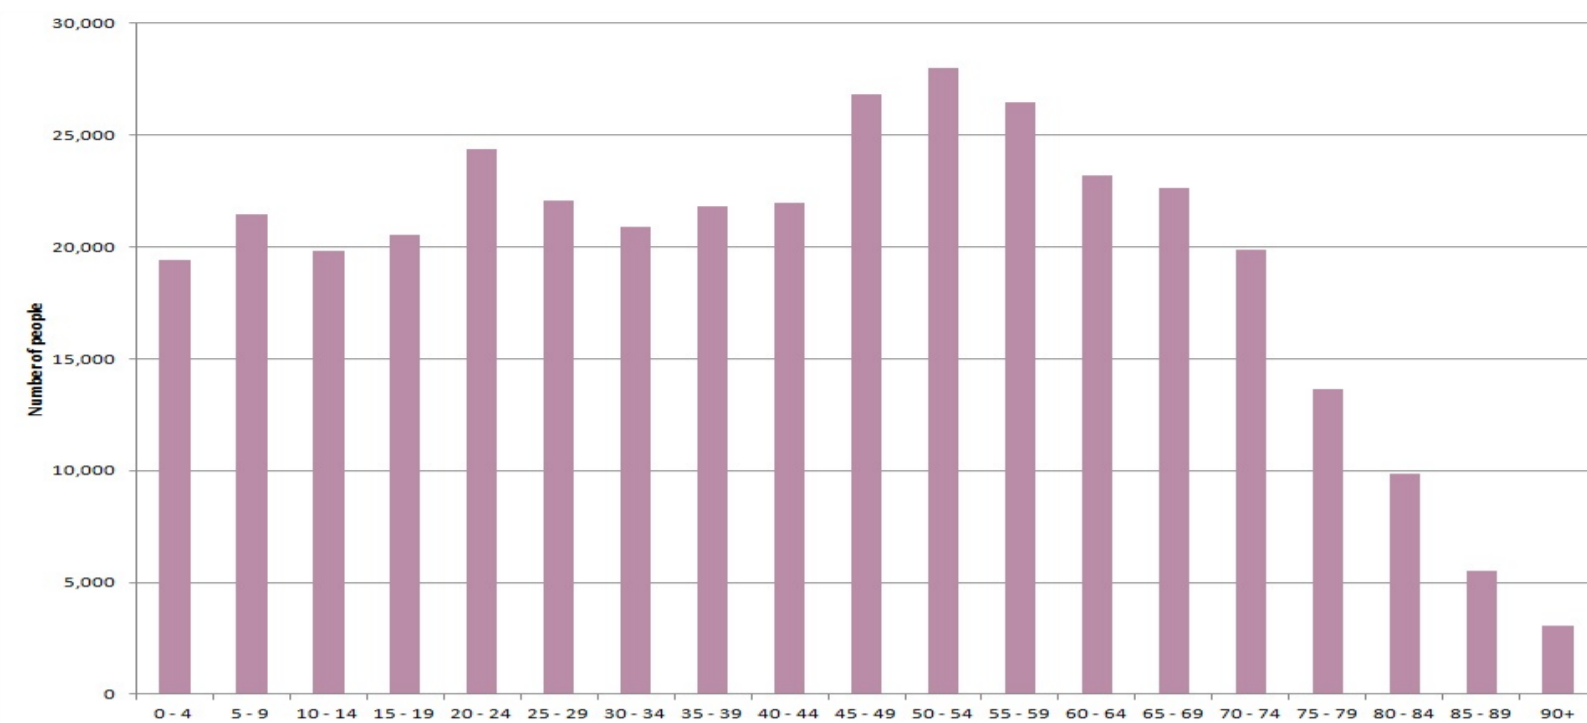

Contact: Public Health Department

Version 1.0

Date: Nov 2018

### Age Distribution

### Key Age Groups

Age Group	Number of people	% of population
0-15	64,333	17%
16-64	232,485	63%
65-74	42,503	11%
75+	32,089	9%

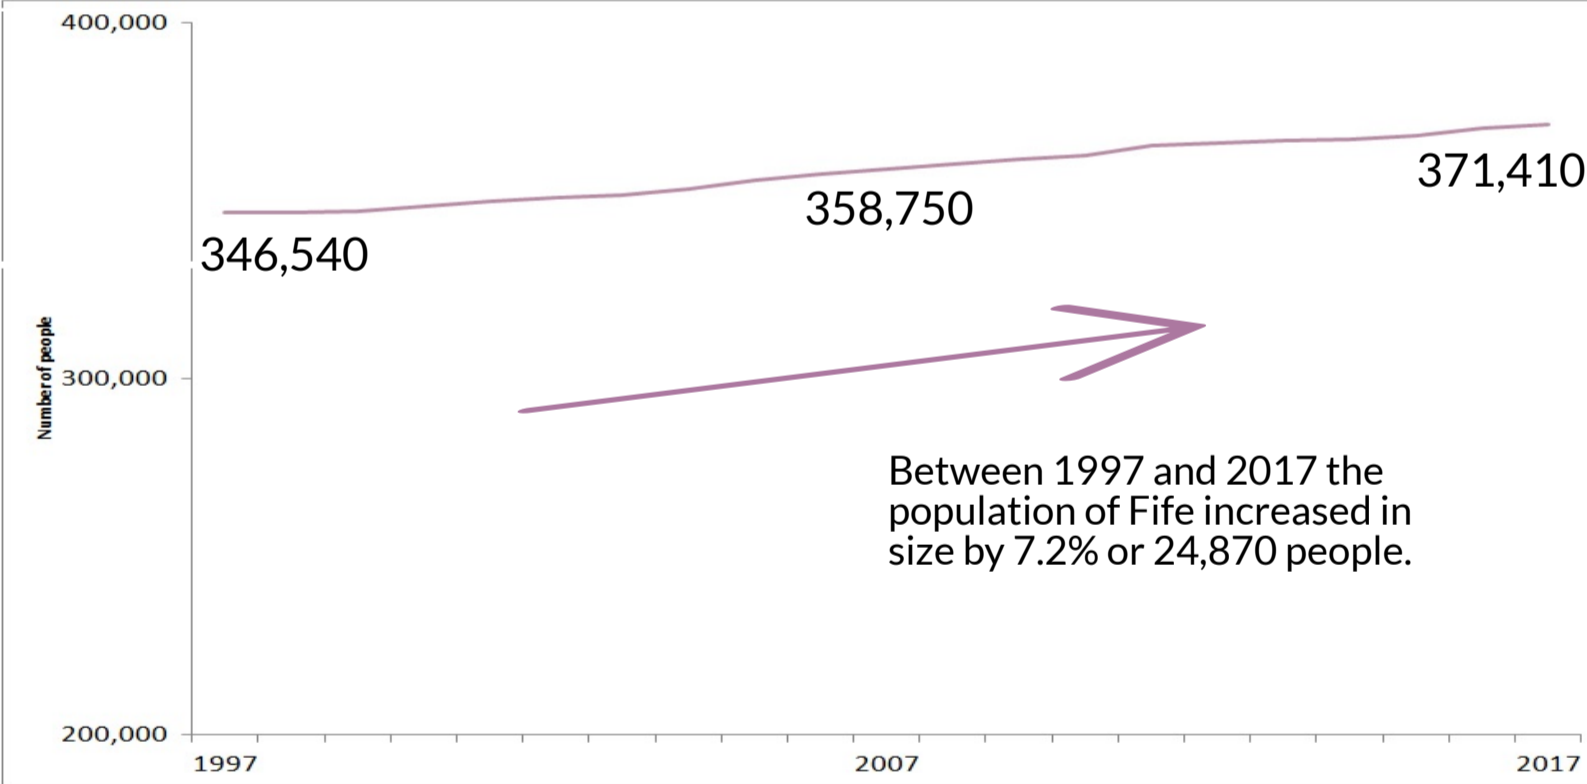

### Gender

There are more females (191,098) than males (180,312) living in Fife.

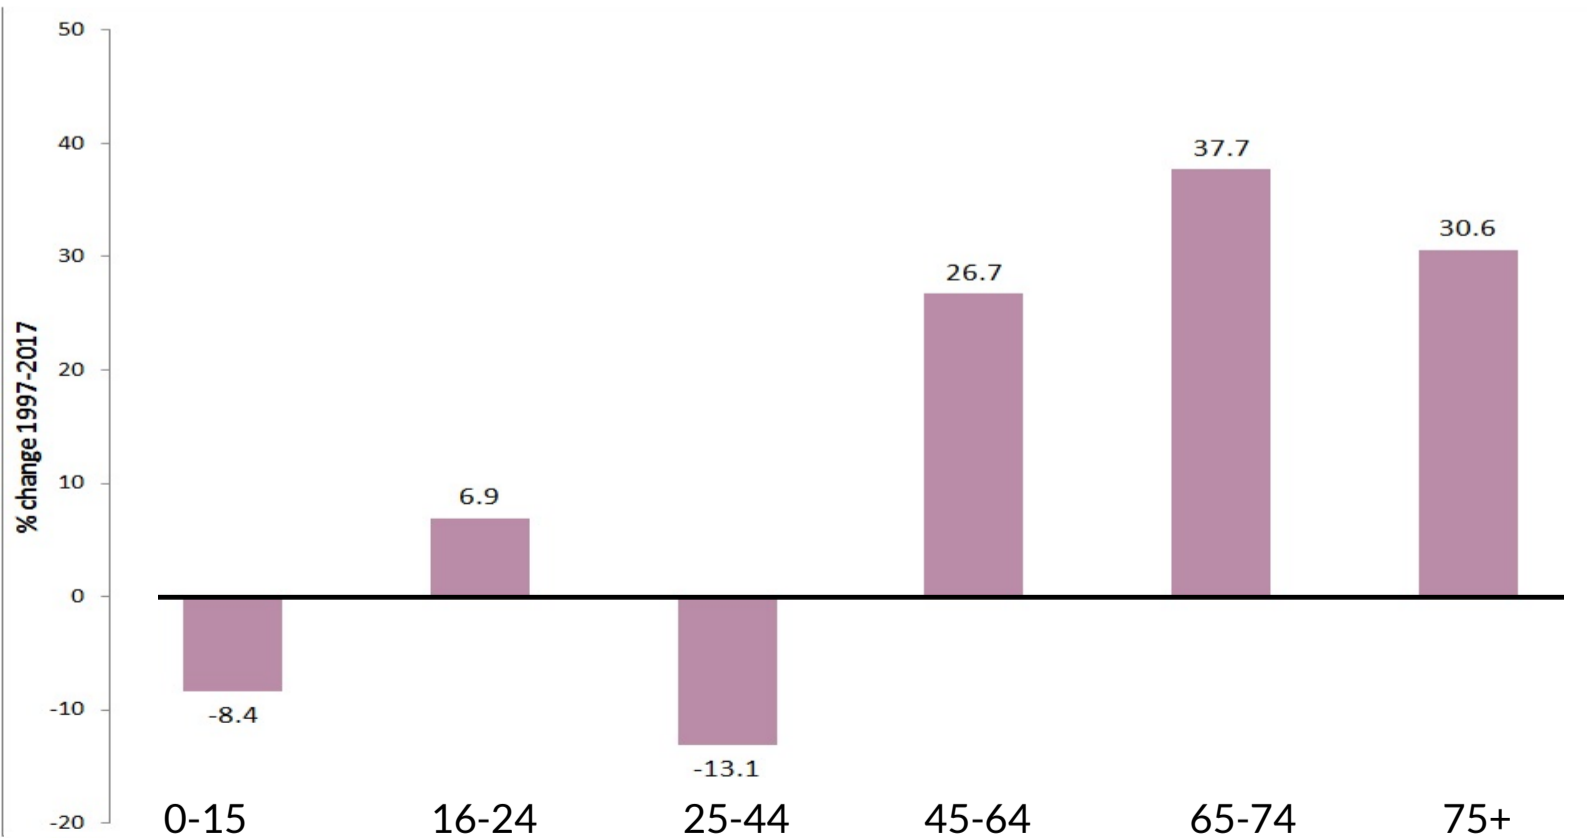

This is true for all age groups except those under 25 years.

### Trend over time - growing

### Trend over time - ageing

Between 1997 and 2017 the greatest increases in population were seen among older age groups.

In this time the number of people living in Fife aged 65-74 increased by 38% and the number aged 75 and over increased by 31% which means there are now 19,157 more people aged 65 and over living in Fife than in 1997.
