2018 Fife Population Estimates

Contact: Public Health Department

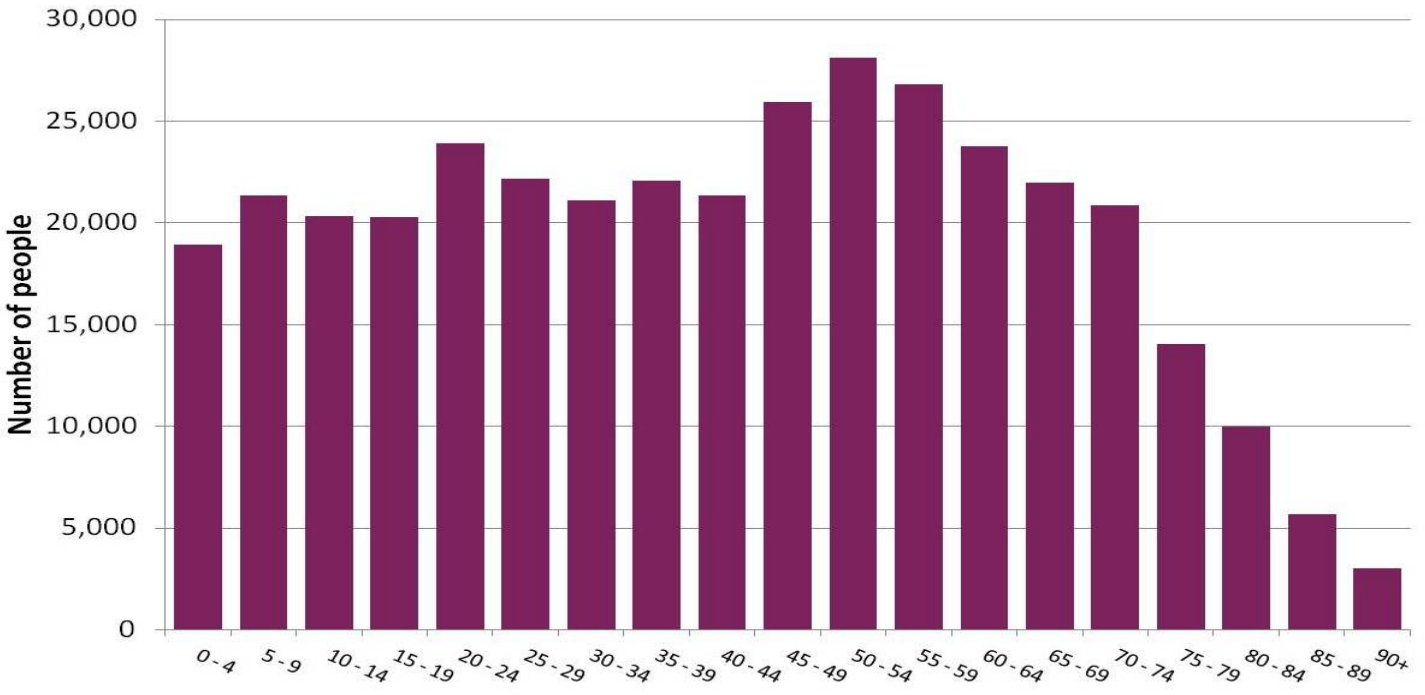

Version 1.0

Date: Aug 2019

371,910

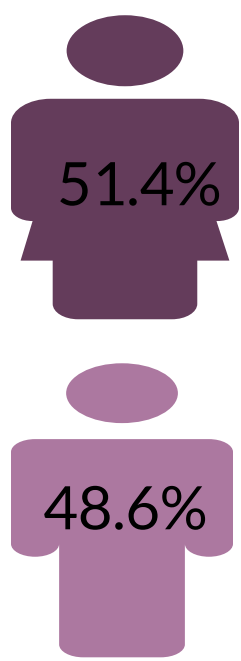

Age Distribution

Key Age Groups

Age Group	Number of people	% of population
0-15	64,473	17%
16-64	231,847	62%
65-74	42,836	12%
75+	32,754	9%

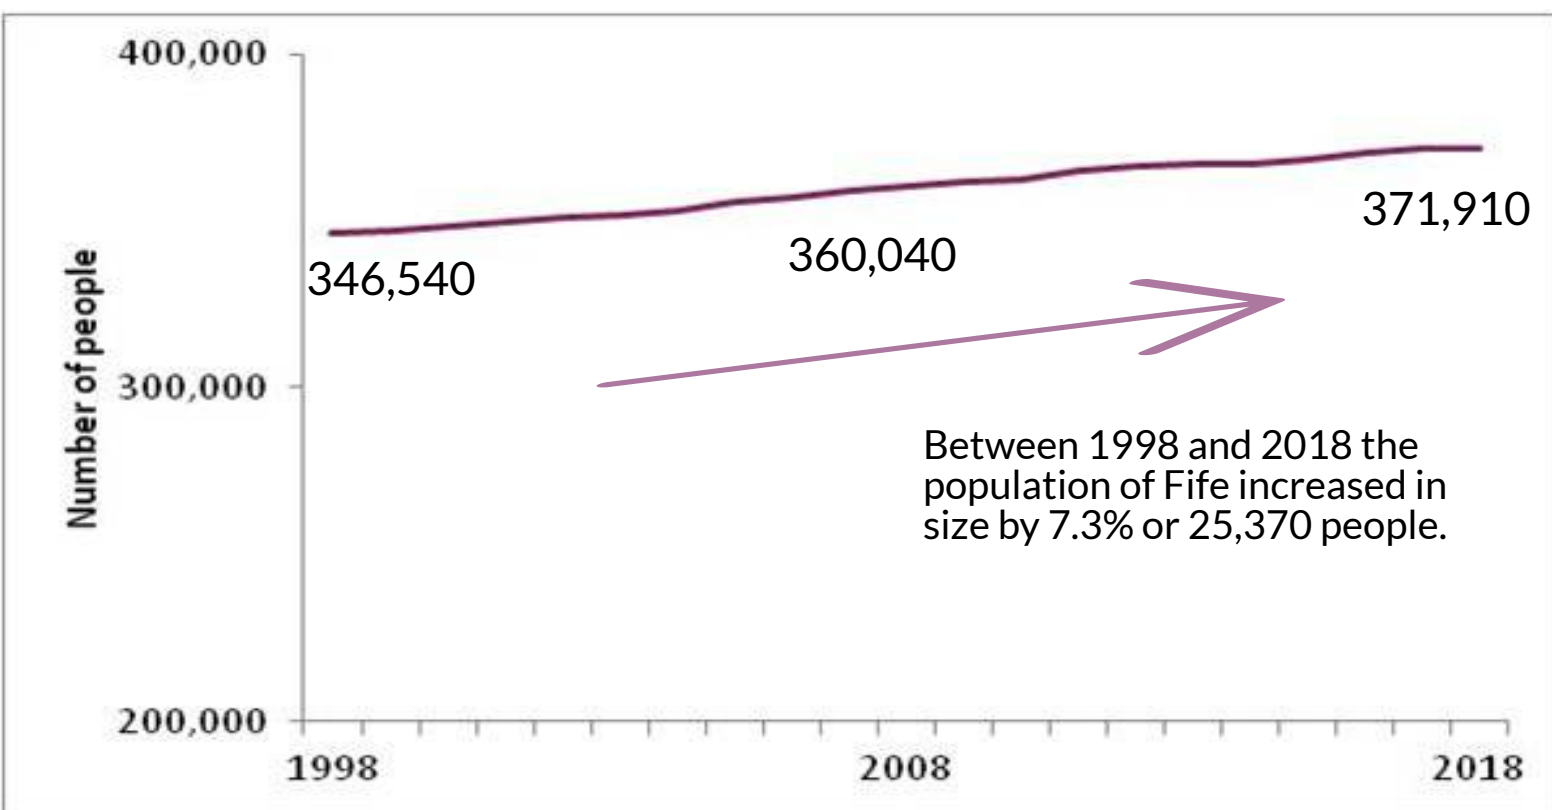

Gender

There are more females (191,290) than males (180,620) living in Fife.

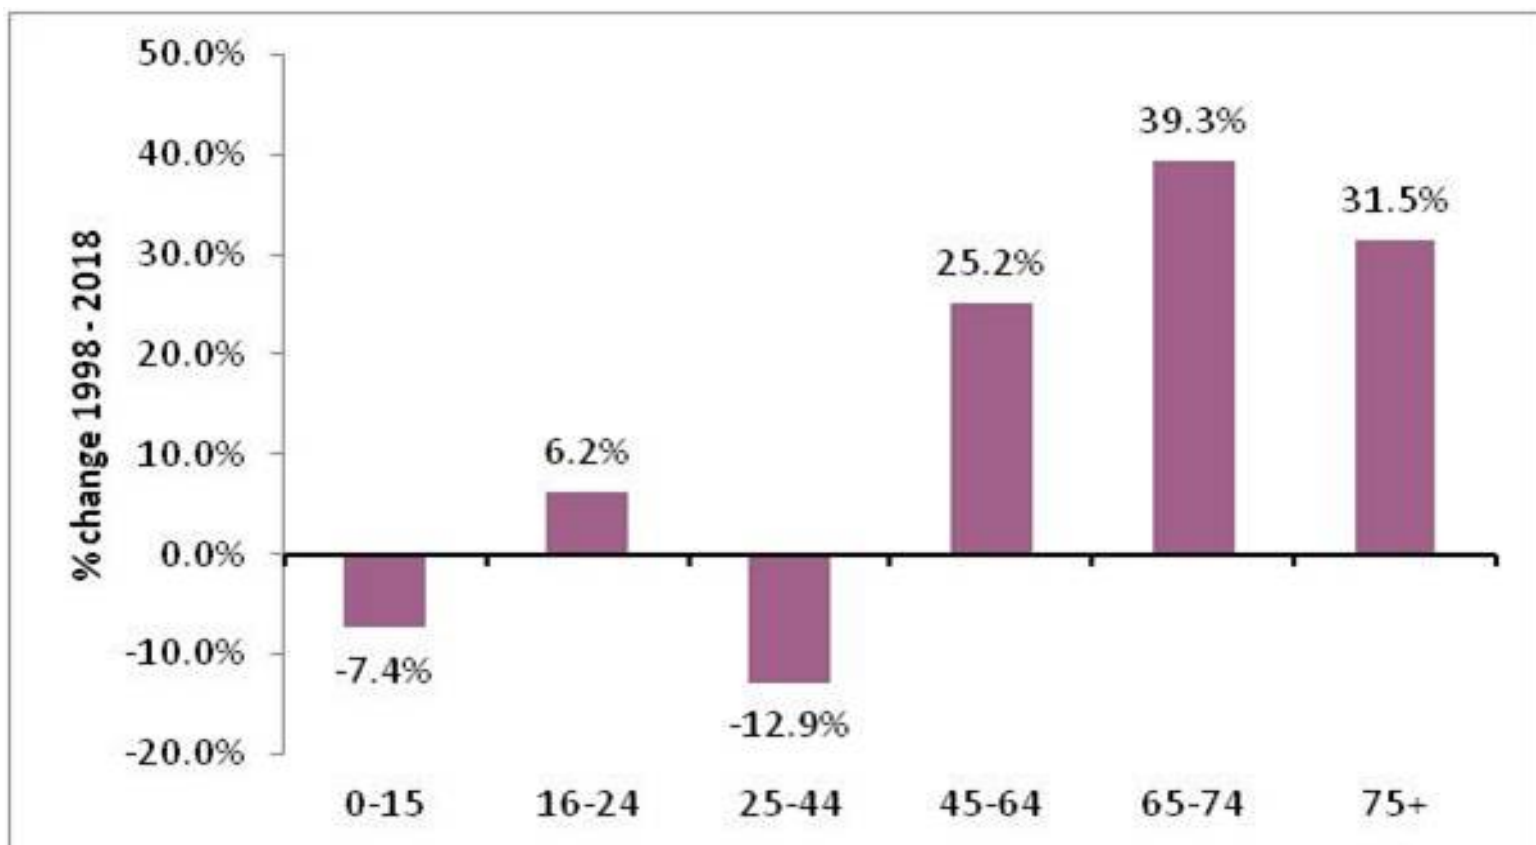

This is true for all age groups except those under 20 years.

Trend over time - growing

Trend over time - ageing

Between 1998 and 2018 the greatest increases in population were seen among older age groups.

In this time the number of people living in Fife aged 65-74 increased by 39% and the number aged 75 and over increased by 32% which means there are now 19,943 more people aged 65 and over living in Fife than in 1998.
